---

**£13480**

**Please note:**

The estimated value/item here is based on current eBay prices for items which are still possible to obtain. However, many of the items included in the collection are no longer possible to find. This is, in particular, the case for the limited-edition items included. If they could be found they would most likely be offered for much higher prices than indicated in the estimated value listed here.

***This collection represents most likely the most comprehensive collection of postage stamps, souvenir sheets with holograms as well as other items such as for example FDCs with cachet holograms.***
