**THE SAAB-SCANIA SYMBOL IN HOLOGRAM VERSION**  
A hologram is a three-dimensional picture produced with the aid of a laser. The technique of holography was invented by Dr. Dennis Gabor, 1971 Nobel prizewinner in Physics. The designer of the Saab-Scania symbol, Swedish artist C.F. Reuterswärd, describes the symbol in this way: "The symbol is in the form of a circular disk with an inscribed super-elliptical ribbon. This suggests optical movement, so that Saab and Scania are shown in their own perspective but are combined in an inter-
